

Platypus Pool Steps User Guide

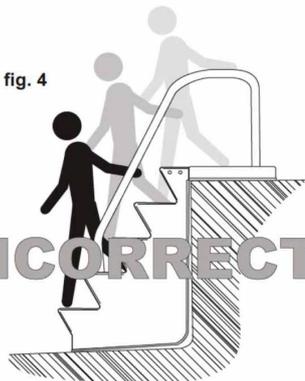

CORRECT

fig. 4

INCORRECT

REMOVING THE STEPS

- Removing the steps is always a two-person job.
- Attach the dolly wheels to the standing platform before moving out of the water.
- Please use caution and care when removing the steps from the pool so as not to injure yourself.

ENTERING THE POOL

- The Platypus Pool Steps have been designed to be used as a ladder. It is critical that all users are instructed to enter and exit the pool facing the same direction – away from the pool.
- Never allow the user to enter or exit the pool facing forwards. Serious injury may occur.
