Exceptional Pool Experience

DOLPHIN SWASH
DOLPHIN SWASH CL
DOLPHIN SWASH TC

Dolphin Swash

Plug & play cleaning of the pool floor and the hard-to-reach floor-wall angle.
Small, lightweight and easy to handle, this autonomous unit requires no pre-installation or connection to pool systems.

Dolphin Swash CL

This reliable pool-wide cleaner, leaves the pool floor and walls sparkling clean, ready for family swimming fun.
Adjustable handle floats help ensure no area is missed.

Dolphin Swash TC

Dual-drive motor with extended maneuvering capabilities for exceptional pool coverage.
Remote control with option to choose between cycle times – 1 or 3 hours for fast cleaning and 3 hours for standard cleaning.
Manual control for pin point cleaning.

Total pool cleaning

Efficient scanning and filtering ensure accurate and effective cleaning of any pool shape, type and size.

Pure hygiene

Powerful brushing helps to prevent germination of algae and bacteria, greatly reducing chemicals costs.

Cost-effective pool care

Advanced cleaning technologies save water and energy and reduce backwashes, because Dolphins are total independent of your filtration equipment.

Minimum service costs

Ease of use and maintenance and proven, long-lasting reliability virtually eliminate after-sales care.
