

AQUEAS AQ-SP05 STARTING PLATFORM

AQ-SP05

AQ-SP05-C

The AQUEAS AQ-SP05 Starting Platform is designed to span extra wide grating on overflow pools.

The starting platform is made of heavy duty 316 mirror polished stainless steel 38 mm^ø with a 500 mm x 500 mm non-slip pattern blue fibreglass top. It features a backstroke bar at the front and a non-slip step at the rear.

Fixing:

(C) Removable with articulated front legs - 2 x AQ-PS04 sockets on the rear legs

Platforms are supplied with blue tops as standard but can be ordered with white tops by request.

Platforms are supplied without lane numbers, if lane numbers are required this is an option and must be requested at time of placing an order.
