

LR850 LONG REACH STARTING BLOCKS

Removable platform with long reach base

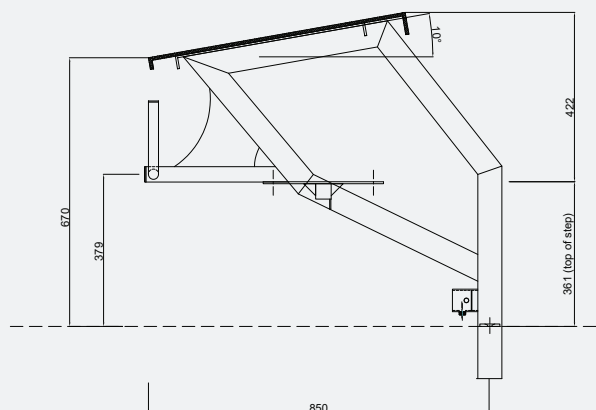

Long Reach Starting Blocks are designed with an 850mm setback and 700mm height, allowing the platform to reach over grating channels and eliminate the requirement for a raised endwall. Available with 3 platform configurations including an elite competition platform with track start adjustable to 5 positions. The track start wedge can tuck away at the rear of the footboard.

- Fibreglass construction with 316 SS fittings
- Track start is adjustable to 5 positions, and tucks away for relay starts (excludes 600 platform)
- Available in 3 platform models
- FINA compliant (FR 2.7)
- Base: High grade 316 SS with mirror finish
 - 850mm setback from pool edge
 - Includes locking deck anchor
 - Non-slip side step
 - Custom coatings available

+ “No Dive” & Solarguard covers available

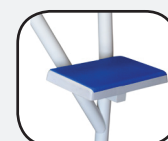

BASE DIMENSIONS

CUSTOM OPTIONS AVAILABLE
